---

**September 22, 2010 Report**

## **Update On Federal Wastewater/Drinking Water Funding**

- ◆ **2011 Appropriations** -- the Congress plans to approve a Continuing Resolution (CR) prior to adjourning on October 1, 2010. The level of funding will be at the current year levels.

Congress plans to return to work in November, following the elections, and complete its work on all 2011 Appropriations Bills. I will keep you informed of developments.

- ◆ **S. 1005** -- I have been working with the Water Infrastructure Network (WIN) regarding Senate action on the bill. There is now bipartisan support from Senators Boxer, Inhofe, Cardin and Crapo to bring the bill to the floor for debate during the Congressional Session that will follow the November elections.

We know that there remain issues regarding Davis Bacon and the formula for distribution of funds to each state. These issues can be resolved during floor debate on S. 1005. I will keep you informed of developments.
